lpeon-casanova1@unl.edu

Objectives:

To foster visual and aural competence and integrate it across the curriculum in the College of Journalism and Mass Communications at the University of Nebraska-Lincoln.

To develop a research agenda to study the effects of media on society through the analysis of iconic photographs and media.

To develop creative projects for public consumption and photographic exhibits.

Qualifications:

Education:

Master of Arts in Education, University of Nebraska-Lincoln, 2008

Bachelor of Science in Radio-Television-Film, University of Texas at Austin, 1986

Academic:

Twenty years full-time experience teaching at UNL's College of Journalism and Mass Communications in the sequences of News-editorial, Broadcasting and Advertising.

Managerial Professional:

Twenty years of professional experience generating new business and procuring completion of multi-million dollar projects, including budgeting, tracking and reporting at state and federal levels. Responsible for hiring various positions within the university system and for the supervision of seven full-time professionals. Secured funding as an independent producer for a variety of projects with large institutions including the National Arbor Day Foundation, the Nebraska Medical Center, the 4-H Club and the Nebraska Health Department. Extensive experience working on instructional materials for media delivery, including broadcast television, Web, CD, DVD, closed circuit and satellite.

Technical:

Skilled shooting motion pictures and still photography in various formats. Skilled using artificial lighting for both motion picture and still photography, including strobe, tungsten and hydrargyrum medium-arc iodide lights (HMI). Skilled in various still image, layout and motion picture editing software packages, including Adobe Photoshop, Adobe InDesign, Adobe Premiere, Final Cut-Pro, and AVI. Proficient in audio production, from field recording to multi-track post-production, utilizing Pro-Tools, Sound Forge and Acid Pro. Experience in Web development using Dreamweaver software and am competent in file compression for Web-delivery of video, audio streams and still images.

Publication and Broadcasts:

- *Pershing documwentary*, 2016
- *We the People documentary*, 2009
- *A Short Course in Digital Photography*, Great River Technology, 2010, electronic publication and online course. (ISBN)
- *Bolivia Magazine*, 2015
- *Watcha Doing*, various billboards in the State, 2006

Experience:
8/2003-present

Assistant Professor of Practice. College of Journalism and Mass Communications (CoJMC), University of Nebraska-Lincoln. The apportionment of my employment is: 70% lecturing, 10% creative/research, 5% extension and outreach and 15% service and citizenship.

Grants/university:

- \$5,500 NU Grant to conduct research on visual literacy.

- \$40,000 from *National Geographic Society* to complete Battle of San Juan Hill project in Santiago de Cuba in association with principal researcher Dr. Peter Bleed from the anthropology department at UNL (2008).
\$50,000 contract with UNL's Department of Food Science and Technology and the Lincoln-Lancaster Health Department's website.
- Developed course proposal for Integrated Communication in Advertising, 2008.

Associations:

- The Association for Education in Journalism and Mass Communication
- The International Visual Literacy Association
- The Lincoln Arts Council
- International Honor Society, Phi Beta Delta
- Advertising Federation of Lincoln
- Lux Center for the Arts
- NPPA, National Press Photographers Association

Personal highlights:

- Helped transition the traditional film processing program of photojournalism at CoJMC into a digital photography environment.
- Helped devise and implement the equipment checkout room by making substantial structural and procedural changes to the infrastructure and operations.
- Recommended hiring a full-time person to manage the checkout room and to reduce equipment loss to a minimum.
- Re-established CoJMC's presence in the national HEARST photojournalism competitions by advising students to attend and compete.
- Created an international course teaching photography, videography and principles of graphic design.
- Stabilized and set in motion the new Visual Literacy (JOUR 142) course at the CoJMC. I will submit JOUR 142 to Peer Review of Teaching Project (PRTTP) and for the Achievement-Centered Education (ACE) general education program certification in the fall to improve the course. We are developing on-line content to supplement and or to substitute lecturing.

12/96-present

General Duties:

Executive Producer & President. PECA Media

Commercial media:

Media solutions for businesses. Produce training videotapes, commercials, public service announcements, web development and consulting. Media translation (Spanish/English) and narration.

Educational media:

Curriculum-based programs for profit and non-profit educational organizations. Develop educational strategies and media delivery including DVD, CD-ROM, Web-based applications, videotapes and print materials. Render translation services and voice overs for Spanish media.

Personal highlights:

- Developed the international educational television videotape series “Children of the World's Society,” including programs produced in Ireland, the United States, Brazil, Italy and China.
- Commissioned to photograph and videotape assorted commercial and educational themes in Ireland for a Chicago-based educational firm and in Italy for the Midwest food chain Valentino’s of America.
- Secured funding to produce a 30-minute educational documentary on literacy in Spanish and 10 public service announcements for national distribution through UNIVISION, the premier Spanish-language network in the United States. This project involved directing and coordinating national talent such as Christina (Christina Sarlegui) and journalist Jorge Ramos in Miami, Florida.
- Commissioned in the fall of 2003 to translate, produce and help direct the media campaign for the merger of Clarkson Hospital and the University Hospital in Omaha into the Nebraska Medical Center brand. This project involved the translation of scripts for radio and television spots and of text in assorted collateral pieces. I also helped produce and direct various television commercials with Spanish-speaking actors.
- Provided translation and narration services to the Arbor Day Foundation in their national television campaigns. (2003-2020)

Contracts:

- Obtained a \$50,000 royalty-advance from the Great Plains National (GPN) Distribution Company to develop the international series “Children of the Worlds’ Society.” 1999-2002. The series is still in distribution.
- Secured a \$40,000 contract to produce a Spanish-speaking literacy documentary for “Reading is Fundamental,” 2003.
- Obtained a \$10,000 contract to produce a promotional video for 4-H.
- Secured a \$90,000 project on Food Safety, Lancaster Co. Lincoln, NE

7/97-5/2003

Executive Producer. Nebraska Educational Telecommunications (NET)

General duties:

Hiring, training and supervising producers, graphic artists, engineers and support staff
 Multimedia/Television development and management of projects/services
 Program/Services research and development
 Budget origination and management
 Reporting on state and federal grants
 Interpreting university’s policies for contract and personnel actions

Professional panels and conferences:

- 14-day professional exchange through USAID in Brazil in 1992.

- Represented the United States as a speaker for the III International Meeting on Global Telecommunications in Sao Paulo, Brazil in 1997.
- Attended a webcasting workshop and public television conference in Stuttgart, Germany sponsored by The Corporation of Public Broadcasting (CPB) in 1998
- Participated as a judge during a week-long distribution screening for “Red de América Latina” (RAL) in Uruguay in 2001.

Personal highlights:

- Developed a web-based Learning Management System (LMS) consisting of 62 on-line courses on law enforcement practices in coordination with the Nebraska Law Enforcement Training Center (NLETC). This 1.6 million-dollar federal project spanned over three years. I was the Executive Producer in charge of the coordination of the development of all the course materials, the creation of all technical infrastructure, including the merging of five legacy systems and the creation of a Y2K compliant database for student registration and tracking.
- With my production and engineering team, created a dynamic content tool allowing instructors to modify course content after publication.
- Served as liaison among NET, the University of Nebraska, and the General Services Administration (GSA) in Washington, DC. These duties included reporting on a bi-monthly budget and progress and the formal testing and evaluation of the 1-million dollar project.
- Other highlights during this period: created similar Learning Management Systems for the Nebraska Department of Education, The Nebraska Medical Center and the Nebraska State Patrol.
- Produced various CD-ROMs and DVDs through National Science Foundation funds, interactive websites and touch-screen kiosks for assorted clients like the Lincoln’s Children’s Museum, the Museum of Nebraska Art.

7/89-7/97

Producer/Director. Nebraska Educational Telecommunications (NET)

General duties:

Program research and development of broadcast and educational programs
 Budget origination and management of projects
 Remote and location television production
 Off-line/on-line/non-linear editing
 Multimedia production supervising graphics/authoring interface creation
 Script research and writing

Personal highlights:

- Managed and produced one of NET's most profitable educational television products, “Math Vantage.” This series of 23 videotapes on mathematics was produced under a National Science Foundation (NSF) 1 million dollar grant over a four-year period. “Math Vantage” earned NET over 1.2 million dollars in gross revenue through the sales of videotapes and earned various prestigious awards.

- Produced, directed and wrote over 50 broadcast and non-broadcast programs. (See attached list of award-winning productions).
- Directed Jim Fowler legendary host of the *Wild Kingdom* series and his co-host Peter Gross in the re-packaging of numerous titles that went commercial through Bozell Advertising representing Mutual of Omaha.

6/84-4/89

Producer/Director. Texas Parks & Wildlife Department (TP&WD)

General duties:

Location and studio television production and photography
Off-line editing/on-line editing supervision
Videographer and field audio engineer
Script research and writing
Multi-channel audio-recording, editing and mixing

Personal highlights:

- Responsible for the production of fifteen slideshows and five 30-minute television documentaries that aired on PBS.
- Implemented the training of park rangers and game wardens in the use and maintenance of audio/visual equipment throughout the state of Texas.
- Earned one national and one international award for television and multimedia.

8/87-10/87

Production Assistant. WGBH Boston, Mass.

General duties:

Production liaison between the United States and Mexico
On location audio engineering
Assistant videographer /videographer

Summary:

- Production team was commissioned to produce a segment on foreign opinions about candidates Dukakis and Bush to the US presidency for a broadcast documentary "Frontline" (PBS) that aired nationally in 1987. Our segment produced in Mexico City was the longest among various segments from other countries included in the national broadcast.

11/79-12/81

Producer/Photographer. AudioGraphis, Mexico City

General duties:

Account representative
Multimedia producer and photographer
Production designer/script writer for marketing, personnel training, annual and medical reports
Audio engineering and mixing of music and narration

Personal highlights:

- Became the agency's main photographer and traveled throughout Mexico shooting photographs for a period of two years while going to college full-time.

- Produced and programmed over ten multiple-screen slideshows.
